

# ILEN LAUNCHES NEW OFFICIAL WEBSITE

## www.i-len.com

After several months of development, we have launched our new official website, and we are so excited to introduce a new layout and look. While the website URL [www.i-len.com](http://www.i-len.com) remains unchanged, you will enjoy a fresh experience when you visit us.

The revamped website has new content and a new user experience as well as optimized and reformatted webpages. It boasts richer content, a clearer structure and a more logical categorization. From services offered and company news, to corporate culture and success stories, our new website presents a multifaceted and 360-degree view of our company.

iLen does not aggressively market itself. Thanks to the trust and support of our clients, we get most of our new business from word-of-mouth and referrals. However, we understand that there are other opportunities for starting successful collaborations. This is why we wanted to share more information about our services and expertise on our website. We hope to engage more clients and inspire them to have a closer look at us, so we can help them grow their business in fields that we specialize in.

A new website brings fresh opportunities and more excitement. We are looking forward to your visit.

## BUSINESS AS USUAL – ILEN STAFF BACK IN OFFICES

After over three months of working from home, our staff returned to their offices in Shenzhen, Changsha and Chengdu in early May 2020 thanks to successful containment of the COVID-19 epidemic in China.

We reconfigured the workplace in our three offices and conducted a thorough disinfection in advance to provide our employees with a comfortable and clean office environment and to minimize potential health risks. Under the guidance of the government, we strictly follow policies on monitoring visitors and offering essential supplies such as masks and alcohol-based disinfectant. All our staff are back to working as normal. Our company has stable and full-strength teams and has successfully passed the recertification audit for ISO 9001 accreditation.

We are successfully navigating the challenges introduced by COVID-19 and will continue to deliver high-quality localization services to our clients.
