# Together for a Shared Future

As this year draws to a close, the haze of the coronavirus pandemic has not yet cleared. The spread of the Delta and Omicron variants has once again cast a shadow over the economic recovery. However, iLen continues to provide high-quality services to our customers despite cost pressures and the impact of the epidemic. Our people are always looking forward and place great emphasis on quality. In the past year, our projects have won critical acclaim from our customers, and some major clients have even given us more projects. We would like to take this opportunity to thank all our customers for their continued support.

As 2022 is around the corner, and the countdown to the Beijing Winter Olympics is well underway, we want to cite the slogan of the 2022 Beijing Winter Olympics - "Together for a Shared Future" - to express iLen's great expectations. We are eager to work hand in hand with our customers and partners as always. We are not afraid of challenges and want to create a brighter future together. We wish all our customers and friends a Merry Christmas and Happy New Year! Stay safe and healthy!

This is just a quick email to let you know that your team have been chosen as our Stars of the Week for your recent work with us.

I wish to let you know that you all received a special round of applause during our weekly company meeting!

----Lara Davies-Jones, Empower Translate

I take this opportunity to thank you for all your help with this and other rush project you have helped me with. I know the effort all your teams do to deliver on time without jeopardizing the quality.

I really appreciate everything you do.

----Fernanda diaz, CO fluency

You said below: "Thank for the kindness". However, it is you and your team the ones who are always kind and exceed my expectations.

Thank you so much for delivering these three languages today. I have no words to express my gratitude for your continuous efforts.

----Andres Crevillen, AMPLEXOR

# **Climbing Jade Dragon Snow Mountain and** marveling at the stunning scenery of Lugu Lake

iLen wanted to reward its hard-working colleagues with an exciting trip. So we headed to Lijiang, Yunnan, to climb the mysterious and magnificent Jade Dragon Snow Mountain to visit crystal-clear Lugu Lake and explore the "Kingdom of Daughters" of the Mosuo people. The year-end journey was disrupted by the Delta variant even before it started, but after many twists and turns, we finally set off with full Covid protection.

The travel preparations were the most difficult we had ever faced, but it also turned out to be an unexpectedly fascinating traveling experience. When we arrived at Jade Dragon Snow Mountain, we were met with snowflakes. We were so excited that we overcame the altitude sickness and climbed to the top of the snow-capped mountain, whose altitude is over 4,000 meters. Standing on the observation deck at the top of the mountain, we could only marvel at the magnificent scenery of snowy mountains and peaks. We were also amazed by Blue Moon Valley and Lugu Lake. Icy water coming from Jade Dragon Snow Mountain converges into a blue lake in Blue Moon Valley, which is so deep and stunning. The golden leaves, blue sky and pure water in Lugu Lake painted us a series of breathtaking oil paintings.

Traveling during the pandemic made us realize that no matter how difficult the process is, as long as we remain optimistic and keep moving forward, good things will come as expected. Let's embrace 2022 with our vision for the future!
